Harness the power of industry-specific extensions to the Salesforce platform designed to solve real client issues and deliver tangible value by connecting with Deloitte Digital's Global Salesforce Assets & Solutions Group.

What is the Salesforce Assets & Solutions Group?
Deloitte Digital is changing the game again—in a really big way. The Assets & Solutions Group (ASG) allows our network of member firms to offer assets and app-enabled services that are an extension of the Salesforce platform across key industry sectors and functional areas. This natural evolution in a long-standing, industry-leading relationship with Salesforce is informed by the deep, global experience of Deloitte Digital’s Salesforce practice. We've built a wealth of technical prowess, strategic vision, and industry insights from our Salesforce implementations—all of which enable our network of member firms to offer you a faster time to value and reduced risk throughout your digital transformation journey. Are you ready to join us?

A Relationship Built to Thrive
Deloitte began working with Salesforce as a go-to-market alliance in 2006 which matured into a global alliance relationship in 2010. We were one of the first large professional services organizations to invest in building a Salesforce practice and, since then, our relationship with Salesforce has grown considerably.

Now, Deloitte Digital is evolving the relationship again. We are the first premier consulting practice to create a substantial technology asset-enabled initiative across multiple strategic countries.
